

# MEGABIT C1 CLONE PROGRAMMER

Clone of the Promenade C1 and will use Promos 2.0 software.  
Connector offset so that it will not be in the way of the C128 80-Col. connector.  
Will program all devices the Promenade C1 can program.  
With the addition of the Megabit Programmer you can program high capacity EPROMs up to 8-Meg.

The programmer is supplied with Promos 2.0 manual, Parts list and Schematic of the programmer in PDF format. EPROM Programmers Handbook in PDF format. Promos 2.0 software in D64 file. All on CD.

Designed by D.C. Newbury ([newbury@planetkc.com](mailto:newbury@planetkc.com))

Price for the Megabit C1 Clone is \$100.00 USD + Shipping & Handling
